Hello sir,

I hope you are fine.

Let me start by telling you how amazing this journey has been so far for me in this organization. It helped me grow both personally and professionally. However, I feel it's time for me to move on to a different aspect of my career.

Sir, as we discussed, I've been selected for a responsible position in a different company, which requires me to join their organization by **1st of June 2023**. I'm ready to serve the 90 days notice period set by TestYantra however, I would be in your eternal debt if you could release me on or before the **31st May 2023**.

Please do consider this as my official resignation letter and accept the same so that I can forward this ahead as the acceptance letter.

Regards,

Nilim Prasad Sarma

Software Engineer

Java Practice

Accepted. Thank you for all of your efforts and support. Best of luck for your future endeavours.

Because you are a core and critical technical member of our team, as well as handling critical projects, our unit is highly dependent on you. As a result, as per the company policy, it is difficult to relive you earlier than 3 months. I'd like you to serve the entire 3 months, as I mentioned in our conversation. Please plan your transition to a new company accordingly. As a result, your last day of work will be June 10, 2023. Please be aware that if you take any leaves during your notice period, your notice period will be extended accordingly.

Hi Prathibha,

Pls plan Nilim Prasad exit accordingly.

With Thanks & Regards,

Praveen D

VP of Engineering

One more thing: please make sure the project deliverables won't be impacted while you're serving the notice period. Please keep your resignation confidential with the customer as well. We will notify the customer of your exit at the appropriate time. If there are any incidences of you breaking the aforementioned points, your notice period will most likely be extended.
